Too much importance must not be attached to the wrong acts done by children, particularly if they happen to be of a minor nature. Many boys and girls at a young age are likely to be in the habit of stealing, neglecting their studies, slipping out of their classes or using bad language. In nearly every case, the root cause of the trouble is the fact that proper care of the child is not taken in the house, or sufficient interest is not shown in him. But if the parents are wise, they would correct the faults of their children by paying more attention to them. Whatever the cause, one thing should never be done. The bad things in the children should never be repressed, that is, they should not be compelled to change for better under fear of the rod. Physical punishment does not improve them. It only makes them worse than before.

- (i) What do boys and girls at a young age do?
- (ii) What is the root cause of their misbehaviour?
- (iii) What is the duty of the wise parents.
- (iv) Why should not a rod is used to make the children better?
- (v) Give the meaning of the words from the passage- (i) slipping, (ii) physical punishment, (iii) compelled (iv) stealing.
