6. **Read the following passage carefully and answer the questions that follow :** [10]

Almost everyday we read or hear about HIV+ or AIDS patients being thrown out of homes, abandoned by parents, refused admission in schools and hospitals. This disease is feared very much. People hate such patients rather than the threatening disease. AIDS makes a person's immune system weak. It cannot fight germs that attack a person's body. There are three major ways in which one can be infected by AIDS Virus- by sexual contact (heterosexual or homosexual) and blood transfusion by an AIDS infected person. The mother who is an AIDS patient also passes the disease to the child she gives birth to :

 - (i) Why do people hate AIDS patients?
 - (ii) What is the negative effect of AIDS on patient ?
 - (iii) What is the effect of AIDS on expecting mother ?
 - (iv) Give the meaning of the words from the passage-

(i) AIDS,	(ii) Virus,	(iii) Abandoned,	(iv) Blood Transfusion.
