Technology, specifically computer technology, is more pervasive than ever before. As such, it has dramatically changed the face of education in the 21st century and will continue to do so. The internet, as well as being a repository of content on every subject imaginable, is a network of people wanting to connect and communicate. Inspired by the rapid development of technology from the 1980s, computer has now become an influential component of second language learning pedagogy. Educators recognize that the utilizing computer technology and its attached language learning programs can be convenient to create both independent and collaborative learning environments and provide students with language experiences as they move through the various stages of second language acquisition.
